

2006 ITS Divisional Conference Survey

Feedback Results For Keith Listoe

The following were comments we received in our feedback survey for the 2006 ITS Divisional Conference.

These following comments were under the heading "LIKED BEST":

The speakers. I thought Keith Listoe's speech was especially **motivating**.

The highlight was Keith's story.

First two speakers of the day were awesome... brought tears to my eyes. Keith's story was inspiring and made me realize that there are a lot of people with interesting stories working here that I don't know much about.

Good speakers. – my favorites were Keith & the car guys.

I felt for Keith as he shared his vulnerabilities and his determination in healing himself, a never give up attitude, a dissatisfaction with his unplanned for and unexpected status quo.

Loved the motivational speaker series. Truly inspiring.

Gary Guller, Keith Listoe, Tom Molinski

I enjoyed both morning speakers. Keith Listoe and Gary Guller.

I found Keith's speech very interesting especially because he is a co-worker and there is a bit of a connection there.

The topics and speakers wer very interesting and the personal stories very inspiring. Great choices!

I thought Keith Kistoe and Gary Guller were great. I really enjoyed both of their presentations.

The morning was the best. Keith was great to hear from and I thought Gary Guller was a great motivational speaker.

Yes, you couldn't have found a better group of speakes.

All speakers were good but I liked Keith Listoe's speech the best because it was an example of a hydro employee overcoming obstacles.

It was great to hear people's personal stories of how they were able to succeed in overcoming their obstacles.

These following comments were under the heading "LIKED CHANGED":

Although I don't know Keith personally, I thought he had overcome more significant obstacles than Gary and giving so much attention to Gary detracted from Keith's story.

The two morning speakers should have been split up as their topic was the same. I felt it would have been better to have one in the afternoon and one in the morning.

Also, the AM was quite inspirational and the PM wasn't. Not that all talks weren't interesting but the two in the AM were by far more interesting as far as public interest goes. Perhaps one of the inspirational talks could have been in the AM and the other in the PM.

These following comments were under the heading "SUGGESTIONS":

Location was good. Venue was good. Speakers were very well chosen. I personally don't feel that bringing in an external speaker is necessary. Presentations from internal Hydro employees are informative, interesting, and enjoyable.

Gary Guller's speech had me enthralled, and it was really nice to hear Keith's story and to see what a positive person.
